SCALING QUESTION A for work in a delegated safety file with a family:

- 0 *Although I have received a referral, I am still unclear as to the vision of the work the case manager has for me. I don't understand my role in this work or how I am supposed to be working with this family to achieve their safety goals. Despite reaching out to the case manager for clarity as well as my team leader, I am still confused on what the case worker really expects from our work together at the end of the day.*
- 10 *I am clear on the reason for the referral and the areas the case manager would like me to focus on. I understand the safety goals and I am confidently working with the family to achieve the case specific safety goals. We are making slow and steady progress in our planning towards future safety for the children involved.*

SCALING QUESTION B for work in a delegated safety file with a child/youth:

- 0 *I am not really clear on what the case manager expects from my time with spent with this child/youth. The referral wasn't clear and I am not sure how this work connects to the greater work in the delegated file and how it will help the case worker make important decisions for this child/youth in the future.*
- 10 *I understand the negative adult behaviour and how it has impacted the child/youth and we are working towards a clear plan to support the child/youth moving forward. The child/youth would say our work together has been helpful for them to get settled in their mind/body and they are feeling much better overall*

UPDATE REPORT:

On a scale of 0–10, how do you respond to the scale above (A or B?)

Your Number: _____

1. What are the best examples of the parent or child/youth demonstrating behaviour that has helped you come up to this number?

2. What strategies of the plan you are working on together would you say are working the best?

3. Who is contributing to things going well, and what are they doing that is most helpful?

4. What worries you most right now that keeps the number from being higher?

5. What do *you* want to continue to work on with the client to move the situation up one point on the scale?

Is there anything else you think you need to add that would be helpful for the case manager to know for their planning towards safety or wellbeing for the children?

Worker's Signature: _____

TL's Signature: _____

Once you have completed this form and had your TL sign off, please provide this to the case manager based on their requests for updates
